The 2014 Southland Mental Health & Addictions Events Calendar

Welcome to the Southland Mental Health and Addictions Events Calendar. An updated version of this calendar is produced and distributed at the start of every month. The calendar contains information regarding local, national and international education and training opportunities for people who work, or are involved, in the mental health and addictions sector. It also includes local meetings, forums and other allied events. Below are the details of the contact people included in the calendar.

The calendar is distributed to a wide range of individuals and organisations in Southland, Central Otago and Otago including mental health and addictions professionals, consumer and family groups, NGO's, community groups, government departments and members of the public. If you have/know of, any events that you think should be promoted/profiled in the calendar please contact me. Similarly, if you know of someone who would benefit from receiving it please forward their contact details to me.
